Protect Your Pets from Inclement Weather & Sun

MDM Products offers two sizes of Dog Kennels for use with canines or poultry. Select either the **larger 7.5 x 13 x 6** unit or the smaller, **shorter 7.5 x 7.5 x 4** unit to fit your needs. These units offer high quality protection from the effects of sun and weather for your pets. The units feature a fabricated pre-drilled frame assembly of **galvanized steel** with all the hardware necessary for easy and instant assembly in a matter of minutes. The canopy roof material is an 8oz. mesh material with UV protection. The canopy is

easily attached to the frame assembly with bungees that slip through grommetted holes along the edge of the fabric. All sides are a **chain-link design** to allow ventilation all around. The base of each frame member is pre-drilled to insert the provided ground anchors. The auger anchors are suitable to secure the Dog Kennel to almost any surface. Once assembled, the unit is a permanent structure that will provide many years of protection for your furry friends!

Exclusive Features
